OBJECTIVE

Java Developer with hands-on experience in designing and developing web applications using Core Java, Spring Boot, Spring MVC, REST APIs, and MySQL. Strong understanding of OOP, Data Structures, SQL, and the Software Development Life Cycle (SDLC). Seeking to contribute to the development of scalable and high-performance software solutions

EDUCATION

BCS – Dr. Babasaheb Ambedkar Marathwada University

8.30 CGPA

July '2022 – May '2025

TECHNICAL SKILLS

- **Languages:** Java, JavaScript, SQL.
- **Frontend:** React.js, Bootstrap, HTML, CSS, jQuery, AJAX, Yii2.
- **Backend:** Spring Boot, Spring MVC, Node.js, Express.js, REST APIs
- **Databases:** MySQL
- **Core CS Concepts:** Data Structures & Algorithms (DSA), OOP, Operating Systems.
- **Testing:** API Testing (Postman), Debugging
- **Tools / Platforms:** VS Code, Git, GitHub, SVN, Postman, Eclipse IDE, STS, MySQL Workbench, PHPMyAdmin.
- **AI Tools:** Cursor, Antigravity, GitHub Copilot, ChatGPT, Windsurf, Codex, Google Gemini.

EXPERIENCE

Software Developer | Sparken IT Solution, Pune

Dec 2025 – Present

Client Projects: GoTax, eCashbook

- Implemented business validation logic and workflow enhancements based on client requirements.
- Developed reusable components and improved existing modules, increasing application maintainability.
- Participated in requirement analysis, code reviews, testing, and deployment activities.
- Troubleshoot and resolved production issues while ensuring minimal impact on users.
- Worked closely with QA and business teams to deliver timely and high-quality releases.
- Contributed to continuous improvement by identifying and fixing performance and usability issues.

Junior Software Developer | Creazione Software, Pune

May 2025 – Nov 2025

Project: Online Job Portal (Quick Start Career)

- Developed and maintained a full-stack Online Job Portal using Spring Boot, React.js, and MySQL.
- Designed and implemented secure RESTful APIs for Job Seeker, HR, and Admin modules, enabling efficient data management and system integration.
- Developed responsive and user-friendly interfaces using React.js, HTML, CSS, and JavaScript, enhancing the overall user experience.
- Integrated MySQL with backend services and optimized database queries to improve application performance and data retrieval.
- Collaborated with the development team using GitHub, Postman, and Agile methodologies throughout the development, testing, and deployment lifecycle.
- Participated in requirement analysis, debugging, API testing, code reviews, and bug resolution to ensure high-quality and reliable software delivery.
- Live Link: <http://quickstartcareer.in/>

Full Stack Development Trainee | Giri's TECH HUB Pvt. Ltd., Pune

Aug 2024 – May 2025

- Completed comprehensive training in Core Java, Spring Boot, Node.js, JavaScript, MySQL, OOP, Collections Framework, Multithreading, and REST API development.
- Developed full-stack web applications using Spring Boot, Node.js, React.js, and MySQL, gaining hands-on experience in backend development, frontend integration, and database management.
- Designed and implemented RESTful APIs while integrating frontend and backend modules to build scalable web applications.
- Applied Object-Oriented Programming (OOP) principles and Java Collections Framework to develop efficient and maintainable applications.
- Built responsive user interfaces using HTML, CSS, JavaScript, and React.js, focusing on usability and performance.
- Collaborated on project development using Git and followed software development best practices, including debugging, testing, and version control.

PROJECTS

Employee Management System

Tech Stack: Spring Boot, Spring MVC, React.js, MySQL, JDBC, REST API, Postman

- Developed a full-stack employee management application to perform CRUD operations for employee records.
- Designed and implemented RESTful APIs using Spring Boot and integrated them with a MySQL database through JDBC.
- Built responsive user interfaces using React.js, enabling efficient employee data management.
- Followed MVC architecture to ensure a clean separation of controller, service, and data access layers.
- Implemented input validation, exception handling, and basic error management to improve application reliability.
- Tested REST APIs using Postman to verify functionality and ensure seamless frontend-backend integration

Jewelry Shop Management System (Desktop Application)

Tech Stack: Electron.js, React.js, Node.js, Express.js, MySQL

- Developed and deployed the application on the client's local system, where it is actively used for daily inventory management, billing, and sales operations.
- Built the application using Electron.js, React.js, Node.js, and MySQL, enabling it to run as a standalone desktop application.
- Designed and implemented RESTful APIs for product, customer, billing, and sales management.
- Integrated a MySQL database for secure and efficient data storage and retrieval.
- Implemented features such as invoice generation, sales history, payment management, and reporting.
- Deployed the application on the client's local machine, where it is actively used for day-to-day business operations.

CERTIFICATIONS

Full Stack Java Development – Giri's TECH HUB Pvt. Ltd. Pune,

- Covered Core Java, Spring Boot, REST API Development, React.js, SQL.

SQL Developer Certification – Infosys Springboard

Git & GitHub Certification – Infosys Springboard
